Second Quarter 2022 Highlights

In the Second Quarter 2022:

- As initially reported in the second quarter of 2020, the quarter was the start of the national and global battle against the COVID-19 pandemic. During the past two plus years, many of our tenants faced economic uncertainty, closing and reopening their businesses. However, those deemed essential services such as drug stores, grocery stores, dollar stores, banks, and government remained operational. At the writing of this report, Canada is in the sixth wave of COVID-19, and although COVID restrictions have mostly been eliminated, consumer confidence remains fragile in the retail sector.

- At **Tri-City Mall**, starting in the first quarter of 2022, the Company secured \$3 million in financing for the construction of a new pad site at Tri-City Mall. The construction is proceeding on schedule and budget with anticipated completion in September 2022.
- The Company is pleased to announce that **Wendy's** will be the first tenant for the new pad site. Ongoing leasing negotiations are in process with a number of other national tenants, and the Company hopes to announce more new tenants in the months. As well, local leasing and leasing renewals were ongoing. The Company continues to monitor the market and look for emerging opportunities with new national & local tenants.
- At **St. Paul Shopping Centre**, management is pleased to report that the St. Paul Shopping Centre is fully leased in its current configuration.
- In **Three Hills**, Red Apple Stores Inc. continued to operate the premises as The Bargain Shop.
- In **Merritt**, the Company still holds a vacant lot with nominal value.

Total liabilities increased to \$28,233,970 as of June 30, 2022 from \$24,831,896 as of December 31, 2021. This increase is primarily due to the new loan in the six months offset by normal payments of interest and principal.

For the quarter ended June 30, 2022, revenue increased to \$1,007,691 from \$999,206 for the quarter ended June 30, 2021. The increase was primarily due to increases in rent and common area & realty tax recoveries in the quarter and increased sales from other tenants paying percentage rent.

Accordingly, rental income increased by \$5,128 or 0.7% as a result of increases in percentage rent by some tenants. Step rent revenue changed from negative \$13,411 in the quarter ended June 30, 2021, to \$13,261 in the quarter ended June 30, 2022, a non-cash amount representing the straight-line recognition of the future rent increase for the new leases. Common area and realty tax recoveries increased by \$3,207 or 1.0% for the quarter compared to the same period last quarter, due mostly to the recovery of common area and realty taxes from tenants.

Expenses for the quarter increased to \$1,048,284 as of June 30, 2022, from \$971,464 for the quarter ended June 30, 2021, an increase of \$76,820 or 7.9%. The primary reason for the increase in expenses is higher activities related to the construction of the new pad site and related costs associated with securing the financing and new tenants, including increased interest and administration in the quarter compared to normal operating expenses in the same period in 2021.

In detail, an increase in interest of \$25,744 or 9.1% in the quarter. Increases in operating costs and realty taxes of \$163,810 or 45.4% are due mainly to higher expenses in the quarter in the Tri-City Mall related to maintenance services on the roof and gas lines. Administration expenses increased by \$21,775 or 11.5% mostly due to professional fees associated with the new pad site development otherwise, administration expenses remain stable.

The Company's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in this certificate.

Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer (such as the Company) to design and implement on a cost effective basis DC&P and ICFR as defined in MI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

Risk and Uncertainties

The Company depends on several national retail chains for a significant part of its income. If any of these chains were adversely affected by economic or business conditions, it would have a negative impact on the Company. The Company would also be adversely affected by a long-standing large increase in interest rates or a severe economic slowdown.

COVID-19

The outbreak of the novel strain of coronavirus in 2020, specifically identified as “COVID-19”, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus for the past two years. These measures which include the implementation of travel bans, self-imposed quarantine periods, and social distancing have caused material disruption to businesses resulting in a global economic disruption. At the same time, global equity markets have experienced historic volatility. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize domestic economic conditions. The long term economic impact of the COVID-19 outbreak is unknown, as is the efficacy of the government and central bank interventions. As we emerge from the past two years of battling COVID-19, it is not possible to reliably estimate the resulting severity of these developments and the impact on the financial results and condition of the Corporation in future periods.

For the Company, COVID-19 has no physical impact on the three properties located in northern Alberta. However, COVID-19 does significantly impact the daily operations of the company, the operations of the tenants, the rental payments by tenants, the cost of operations at each property and the Company’s ability to access funds in the capital markets for financing. The current impact of COVID-19 on the Company is reported in the section “Second Quarter 2022 Highlights”. Going forward, until the population is fully vaccinated against COVID-19, the uncertainty and its impact on the Company remains difficult to measure for the coming year.

Subsequent Event

Subsequent to the quarter ended June 30, 2022, the Company announced Wendy’s Restaurants of Canada will be the first tenant for the new pad site currently under construction.

OUTLOOK

The effects of COVID-19 continue to linger on the global economy as supply chain issues, and labour shortages are slowing the economic recovery around the world. In addition, the war in Ukraine are affecting oil prices around the world with a major impact on the Alberta economy, resulting increase economic activities in the oil sector.

While western nations with higher vaccination rates are reopening cautiously, developing nations are still dealing with the pandemic due to low vaccination rates. This global variation in

vaccination rates has caused a slow restart of economic activities in the developing nations, thus impacting the global supply chains worldwide for a wide range of products.

As of this writing, COVID-19 is well into the sixth wave in North America, with most COVID cases associated with those who are not fully vaccinated. The result is that local and global economic uncertainty will be with us well into 2022.

In the recent federal budget announcement, government spending will continue to keep domestic economies afloat with a focus on specific sectors of the economy and to encourage the return of the labour force. As well, inflation is increasing faster than expected, and interest rates are anticipated to increase further in the third quarter of 2022, with a possible decrease in 2023.

In Alberta, the oil and gas prices have rebounded along with a robust capital market in equities. The increased global demand for oil due to reduced gas and oil supply from Russia will have long term benefits for Alberta. However, these positive indications have not fully transferred to the retail sector in Alberta, but indicators are positive on the horizon. Our mix of “everyday basic needs” has served us well during the pandemic and for the recovery.

Overall, the economic future remains uncertain for many sectors of the economy, including commercial real estate holdings.

For the Company, our properties are in regions with diverse economies and do not solely depend on the oil & gas sector. While it’s anticipated that oil prices will impact local economies, it will be softened somewhat in these two regions due to their diversification, with agriculture, tourism, and the Canada Forces Base in Cold Lake, in addition to the oil and gas industry.

The historic low-interest-rate environment is ending, and interest rate increases are anticipated to allow central banks to keep inflation in check. The Company will continue to monitor the interest cost for future financing.

Operationally, our business model has enabled the Company to weather past economic downturns better than most sectors, as our anchor tenants and national retailers are key retailers in their region. In addition, groceries, pharmacies, and some of our other tenants are deemed essential services.

While the Canadian retail market will be facing a major reorganization after COVID-19, the Company has historically been able to renew leases when due and secure new tenants when opportunities arise. Accordingly, management is continuing its efforts to lease the remaining vacancies at Tri-City Mall and for the new pad site.

Tri-City Mall, Cold Lake, Alberta

The Tri-City Mall remains the flagship mall in the Company’s portfolio and represents a major portion of the revenue generated for the Company.

As of the writing of this report, the Company has secured financing for the construction of a new 7,491 sq. ft. pad site at Tri-City Mall. Construction is anticipated to be completed by September 2022, and details of the new tenants will be announced once finalized.

In the quarter ended June 30, 2022, the Company continued to work with the tenants to on the economic recovery due to COVID-19. The Company is committed to leasing the remaining space in Tri-City Mall and fully leasing the mall.

With the changes noted above, the current tenant profile remains stable with Ardene, ATB Financial, Fire & Flower, Government of Alberta Infrastructure, Bootlegger, Bross Hair, Dollar Tree, Easy Financial, Pet Valu, Pizza Hut, Sobeys, Sportchek, V-Nails & Spa, Value Drug Mart, Warehouse One, Wendy's, and Winners. When fully leased, the mall will add substantial value to the Company's investment portfolio.

St. Paul Shopping Centre, St. Paul, Alberta

St. Paul Shopping Centre continues to be fully leased in its current configuration. The current tenant profile consists of Peavey Mart, Ardene, Dollar Tree, Marks, and Giant Tiger Stores occupying the mall. The two pad sites are leased by Tim Hortons and Petro Canada.

Three Hills, Alberta

Our Three Hills property is operating as a Bargain! Shop.

In Merritt, British Columbia, the Company still holds a vacant lot.

Our long-term financing consists of mortgages and an unsecured loan with a related party. As of June 30, 2022, the mortgages and loans outstanding for the Cold Lake and St. Paul properties stand at \$21,453,410 for these two properties bearing interest at 5.26% (\$15,858,552) maturing on September 1, 2023, at 4.48% (\$2,630,318) maturing on April 1, 2025 and at prime plus 1% (\$3,000,000) maturing on March 4, 2027. The Three Hills property has a mortgage balance of \$250,851 as of June 30, 2022, paying interest at 5.85% and maturing on December 1, 2023.

To view a complete list of our tenants, please visit our website at www.gpequities.com.

Our business model of investing in anchored shopping centres, with a focus on everyday needs, remains our competitive advantage during good and difficult economic conditions.

The Company continued to focus on securing new leases based on the current interest of national and local tenants. However, COVID-19 has dramatically changed the retail landscape and new leasing will be a challenge. Management is committed to fully leasing Tri-City Mall, which will substantially increase the valuation of the investment portfolio based on external appraisals. The Company is pleased to report that St. Paul Shopping Centre continues to be fully leased based on the current configuration.

On a personal note, I would like to thank all the healthcare workers and retail workers and staff in Canadian retail, who made our lives better during the pandemic, which will hopefully run its course in the coming months.

Yours truly,
